Overall Landscape Plan & Facilities

“The evolution of Tanjong Katong from an organic coastal area to a residential suburb inspired the transformation of landforms from south to north, from naturalistic to stylised to geometric. In juxtaposition, a geometric weave pattern based on a stylised Peranakan tile radiates from the conserved house to its surroundings, accentuating the historical links to its Peranakan roots.”

The Signature Collection is poised to enchant your next chapter. Light, neutral tones accented with stone patterns and woodgrain finishes elicit natural warmth throughout the unit. With two to four bedrooms, the collection presents exciting singles pads and room for young families to blossom.

Each unit is conscientiously planned and efficiently designed with thoughtful integrations to amplify space. The master bedroom features a floor-to-ceiling wardrobe with a full-height mirror and side panel dresser built in for maximum storage.

Everyone dreams in comfort, as all rooms can accommodate at least a queen bed while the master bedroom fits a king. Meanwhile, storage spaces are well designed with ledges on the swing doors to help keep your home clutter-free.

For more possibilities, choose a Signature Premier unit with either a bigger foyer or a dry kitchen.
